UNIVERSAL FIRE OFFICE,
23, FINSBURY PLACE, LONDON.

THE POSITION of the UNIVERSAL FIRE INSURANCE COMPANY, LIMITED, is now VERY SATISFACTORY, and the Directors have much pleasure in declaring the SECURITY offered to POLICY HOLDERS is ample. The progress the Company is making in Europe is almost unprecedented, and it is confidently expected the Indian Branches will prove equally successful, as with Good Security and moderate rates of Premium, a large business must be rapidly secured.

The Undersigned have already received many applications for Insurance, and having GREAT DISCRETIONARY POWERS will take RISKS on their MERITS. The DIRECTION and MANAGEMENT have been recently much ALTERED and STRENGTHENED. The Company is Non-Tariff.

EXPLANATION
OF
THE POSITIVE PLAN.

POSITIVE LIFE ASSURANCE is an entirely new system, which confers several highly important advantages on the assured, never before presented to the public. The assured has the option of paying premiums during 5, 10, 15, 20, 25, or 30 years ; but should the assured die before the term of years chosen has expired, no further payments are required, and the amount assured is paid in full.

Another distinguishing feature of the plan is, that it gives the assured a "positive" negotiable property, resting on Government security, for every premium paid.

For the first, and every subsequent premium paid, an equal portion of the Assurance becomes completed, independent of future payments, and a *Positive Note* is issued (which is in effect a completed or paid-up Assurance), payable three months after death of the assured, and available to the bearer during life, to the extent of 40 per cent. of the premium it represents.

Information will be given to assurers on every point requisite to make them acquainted with the Positive system and all papers and prospectuses in connection with the Society may be had on application to

J. SCOTT,
Agent.

SPECIAL NOTICE.

LONDON AND LANCASHIRE LIFE ASSURANCE Co.

SPECIAL REDUCED SYSTEM TABLE.

Special Annual Premiums for Assuring Rs. 1,000 at Death for the Whole Term of Life.

Age.	First Five Years.	Remainder of Life. With Profits	Remainder of Life. Without Profits.	Age.
	Rs. as. p.	Rs. as. p.	Rs. as. p.	
25	25 14 4	40 12 8	35 13 4	25
30	27 9 4	42 8 8	37 6 0	30
35	29 9 4	45 10 8	40 15 4	35
40	32 3 4	52 9 4	46 6 8	40
45	38 6 0	60 4 0	53 14 8	45
50	43 6 8	69 4 0	63 5 4	50

The Profits on Policies opened under the above Table will only accrue from date of payment of first equalised premium, *i. e.*, after the termination of the Five Years.

The Advantages under this Table are—

I. That by superseding the half-credit system, no debt is created under the policy.

II. Those whose incomes or Profits from business are likely to increase, and yet who may wish to effect a policy for Family purposes for a *present small outlay* can attain their object by this Table.

III. To those who are required to effect policies in connection with financial transactions, this Table will be found to meet such cases, and likewise enables the Policy-holder to keep on foot his policy, after the original object is satisfied for which the assurance was effected.

The above rates will be reduced to the equivalent English rates in the event of the Assured returning to Europe, at any time, without fresh medical examination.

Premiums on the above Table can be paid Half-yearly, or Quarterly, at the option of the Assured. Rates of premium for ages not stated in above can be obtained on application.

Prospectuses, Tables of rates for different classes of Assurances, can be obtained from

UNIVERSAL FIRE OFICE, 23, FINSBURY PLACE, LONDON.

THE POSITION of the UNIVERSAL FIRE INSURANCE COMPANY, LIMITED, is now VERY SATISFACTORY, and latest advices from London serve to clear that the SECURITY offered to POLICY HOLDERS is ample. The progress the Company is making in Europe is almost unprecedented, and it is confidently expected that the Indian Branches will prove equally successful, as with Good Security and moderate rates of Premium, a large business must be rapidly secured.

The Undersigned have been already received many applications for Insurance, and having GREAT DISCRETIONARY POWERS will take RISKS on their MERITS. The DIRECTION and MANAGEMENT have been recently much ALTERED and STRENGTHENED. The Company is Non-Tariff.

WM. WATSON & Co.,
24, Apollo Street,
Chief Agents Bombay, Punjaub and North West.

TENDERS are invited for the CONVEYANCE of the following TIMBER from the Kodibagh Timber Depôt, Karwar, to Bombay, Bhownuggur and Veeravalli:—

To Bhownuggur	50 Logs Teak	200 „
Ditto	150 Logs Junglewood	600 „
To Veeravalli	25 Logs Teak	100 „
Ditto	320 Logs Junglewood	960 „
H. M. S. Dockyard, Bombay	52 Logs Teak	520 „
Ordnance Department, Bombay	probably	200 „

Contractor should include cost of dragging, floating, loading, and delivering.

All the Timber being of large size will probably have to be loaded outside the bar of the Kalanuddee, and the Junglewood logs require to be floated out on bamboo rafts.

Tenderers should give the rates per candy. The Undersigned does not bind himself to accept the lowest or any Tender.

Fifty Junglewood logs should be sent to Bhownuggur within a month from present date and the other Timber for Bhownuggur, Veeravali, and Bombay by the 15th of January 1876.

EXPLANATION
OF
THE POSITIVE PLAN.

POSITIVE LIFE ASSURANCE is an entirely new system, which confers several highly important advantages on the assured, never before presented to the public. The assured has the option of paying premiums during 5, 10, 15, 20, 25, or 30 years; but should the assured die before the term of years chosen has expired, no further payments are required, and the amount assured is paid in full.

Another distinguishing feature of the plan is, that it gives the assured a "positive" negotiable property, resting on Government security, for every premium paid.

For the first, and every subsequent premium paid, an equal portion of the Assurance becomes completed, independent of future payments, and a *Paidup Note* is issued (which is in effect a completed or paid-up Assurance), payable three months after death of the assured, and available to the bearer during life, to the extent of 40 per cent. of the premium it represents.

Information will be given to assurers on every point requisite to make them acquainted with the Positive system and all papers and prospectuses in connection with the Society may be had on application to

J. SCOTT,
Agent.

SPECIAL NOTICE.
LONDON AND LANCASHIRE LIFE ASSURANCE Co.

SPECIAL REDUCED SYSTEM TABLE.

Special Annual Premiums for Assuring Rs. 1,000 at Death for the Whole Term of Life.

Age.	First Five Years.	Remainder of Life. With Profits	Remainder of Life. Without Profits.	Age.
	Rs. as. p.	Rs. as. p.	Rs. as. p.	
25	25 14 0	40 12 8	35 13 4	25
30	27 9 4	42 8 8	37 6 0	30
35	29 9 4	46 10 0	40 15 0	35
40	32 3 4	52 9 4	46 6 8	40
45	38 6 0	60 4 0	53 14 8	45
50	43 7 8	69 13 4	63 5 0	50

The Profits on Policies opened under the above Table will only accrue from date of payment of first equalised premium, i. e., after the termination of the Five Years.

The Advantages under this Table are—

I. That by superseding the half-credit system, no debt is created under the policy.

II. Those whose incomes or Profits from business are likely to increase, and yet who may wish to effect a policy for Family purposes for a *present small outlay* can attain their object by this Table.

III. To those who are required to effect policies in connection with financial transactions, this Table will be found to meet such cases, and likewise enables the Policy-holder to keep on foot his policy, after the original object is satisfied for which the assurance was effected.

The above rates will be reduced to the equivalent English rates in the event of the Assured returning to Europe, at any time, without fresh medical examination.

Premiums on the above Table can be paid Half-yearly, or Quarterly, at the option of the Assured. Rates of premium for ages not stated in above can be obtained on application.

Prospectuses, Tables of rates for different classes of Assurances, can be obtained from

SPECIAL SHORT ADVERTISEMENTS.

FOR SALE AND HIRE.—One New and handsome SHIGRAM

...ERCIAL INTELLIGENCE

...ONDAY EVENING, 1st NOVEMBER 1875.

...SINESS here re opened to-day after the holidays, but what with mail work and the way attention is now taken up with preparations for the Prince's visit, there has been very little doing.

The home telegrams during the holidays have not advised any very special movements. The Liverpool Cotton Market continues very quiet, Saturday's closing report giving the sales at 8,000 bales Fair Dhollera and Omrawuttee 4¾, G. F. Ginned Broach 5 15/16d., G. F.S.G. Dharwar 5¾d., Mid. Orleans 7¼d. per lb. This morning's message reports the market as opening quiet, probable sales 12,000 bales, actual imports 14,000 bales.

In New York the price of Mid. Uplands is still given at 14¾ cents, but futures on Saturday were ¼ cent. per lb. higher. Gold had declined to 116 and Exchange on London to dlrs. 4.78 per £ Sterling. The receipts to date are as follows:—

	1875	1874	1873
Week's Receipts..... ..	169,000	148,000	103 000
„ Exports to U. K.	41,000	50,000	40,000
„ „ Continent ...	57,000	12,000	11,000
Total Receipts since 1st Sep.	743,000	653,000	479,000
Stocks at U S Ports.	406,000	407,000	257,000

The visible supply of Cotton for all Europe on the 29th instant compares with the past two years as follows:—

	1875	1874	1873
Total supply of all kinds	1,860,000	1,800,366	1,570,080
„ „ Surats	690,000	754,720	873,240

Coffee in London was quiet at previous prices. Ceylon Cocoanut Oil had advanced 5s. and Ceylon 10s. per ton. Bombay Linseed is 6d. per cwt higher. Rapeseed unaltered.

Rupee Paper is quoted the same as on Thursday last. Oriental Bank and Chartered Bank Shares have declined 10s.; Chartered Mercantile are unaltered, and Hongkong and Shanghai have advanced £1 per share. Consols this morning are quoted at 94¼. French Rentes at 105. Bar Silver is still at 57d. per oz.

In STERLING EXCHANGE to-day there has not been much done, and rates are unaltered since Wednesday last. We quote:—

Bank Bills on demand	1s. 9d.	13.16 per Rupee	
Do. 6 months' sight	1s. 10d.	11-32	„
Credits 3 „	1s. 10¼		„
Documents 3 „	1s. 10d.	5-16	„

On Calcutta and in Government Paper we have not heard of any business and values are nominally the same.

The SHARE MARKET re-opened with a very quiet feeling and any transactions reported show a decline. Bank of Bombay's are a half per cent., Dharumsey Spinning Rs. 20 per share and Frere Land Rs. 10 per share lower.

In COTTON we have not heard of anything being done for export, nor are we likely to see much doing until the holidays are quite over. Prices are quite nominal.

Freights are very dull nominally at 35s. per ton by steamer to Liverpool, but there is very little cargo offering at that and 30s. would be nearer the figure.

In Piece Goods business can scarcely be said to have actually re-opened yet, but in any case prices are unchanged.

CALCUTTA MONEY MARKET.

OFFICE OF THE "ENGLISHMAN," THURSDAY EVENING.

BUSINESS is again interrupted by native holidays, today and to-morrow being quite close days. There is not yet much sign of the increased activity in trade looked for at this season, but there is a slight movement in money towards a more extensive employment for it. Some shipments of silver have been made to Colombo, and as a drain of this description carries away hard cash, it is a more important feature in the market than any purely local demand would be. As yet the amount of these shipments is 12 lakhs, but it is not improbable that more will follow, and in the meantime a slight check has been given to the falling value of money.

After publication of the Bank of Bengal's statement last week, a feeling gained ground that a reduction in rates of discount was imminent, but this week's statement showing a turn in the current, and the busy export season approaching, rates have been maintained. The Bank's cash balance have this week declined 12 lakhs, but the increase in the public demand amounted to close on 20 lakhs, of which 14 lakhs were taken from the deposits, and the balance in loans and discounts. The Government deposits are 12 lakhs higher, and the Bank's investments in paper 3 lakhs higher, which explains how the cash has not been further intrenched upon. That latter item stands at the high amount of 413 lakhs, and the proposition it bears to the liabilities is 69½ per cent. so that no symptom of anything like dear money is at present visible. The amounts of Council bills coming out to this place are at present very large.

Money is again dearer in England; the bank minimum was put up to 4 per cent. on Thursday last, and since then further heavy withdrawals of bullion have taken place. The price of silver remains at 57d. per oz., and moderate shipments are being made to Bombay.

The Import Market continues in a healthy state, and there have been considerable clearances of shirtings, principally of medium and inferior qualities and light weights, the prices obtained for which are remunerative. The future of the market looks well, and there is reason to believe that fresh shipments from home will be moderate.

In exports there is no increased life as yet, but on Monday a very large sale of tea comes off, in value about 25 lakhs of rupees. Indigo will soon be appearing in the market, but just is keeping very quiet, very little doings in bales, and prices being flat; there is a steady off-take of loose juste going on, the local mills alone consuming a considerable quantity.

EXCHANGE.

Sterling is rather lower again, the Banks giving it less support in their selling rates although the demand upon them is less than it was last week. There has been no quotation given above 1-10¾ for six months' sight, and at one time scarcely over 1-10 3 16 was to be had, but all the business for the mail has been arranged at 1-10¾, and the rate looked strong at the close of business. Short remittance is feeling the effect of the rising money market at home, and three months' sight has drooped from 1-10 1/16 to 1-10. Demand bills, after being sold at 1-9½, could not be had at better than 1-9 11 16 at the close. A fair amount of telegraph's has been arranged, first at 1-9½ and at the close 19-16, but during the week a little was done so low as 1 9 5-16. There has not been much Commercial paper offering, and rates are lower than last week. Bills have gone steadily at 1-105, documents for acceptance at 1-10 1/16, and documents for payment at 1-10¼. The quotations closed as under—

Bank Bills, on demand	1-9 11/16
Bank Bills, 3 months' sight	1-10
Bank Bills, 6 months' sight	1-10¼
Credits and Clean Private Paper, 6 months' sight	110-5/16
Document Bills, 6 months' sight,.....	1-10¼

France.—Quotations are little more than nominal, so little is doing, but they are called *f.* 2 35 for three, and *f.* 2-37 for six months' sight document bills.

Bombay rates are firm, 4 annas premium for demand, and 8 annas discount for sixty day Bank bills.

China.—The rate for Sundays steamers closed at 219.

STOCKS AND SHARES.

Within the last day or two there have been slight symptoms of a better time coming for shares, but they do not spread quickly nor widely, and the only really firm department is that of spinning mill scrip.

Government Securities, however, are looking decidedly stiffer, especially four per cents, in which a good amount of dealing has taken place at from 1¾ up to 2 premium. There have been some transactions in four and a-half per cents at from 2 5-8 up to 2¾ premium, but five and a-halfs have been less easy to place, and the prices have been only 7 13-16 and 7¾ premium. The closing quotations were as under, and they all looked firm—

4 per cents.	102
4½ „ „	102¾ to 103
5½ „ „	107 7-8 to 108

Bank Shares have all been flat, and in Bengals a daily progressive fall is going on, although there has been no great pressure to sell; but whenever a small lot of shares appear at market, buyers, as a matter of course, offer a lower price than the previous transaction was done at, and so the market value of the stock is steadily slipping away. Up to this time stock has been coming to market much upon the usual small scale, and prices have gone down Rs. 125 per share since the date of its becoming known that Government are to come into the market as sellers. Should a desire to sell spread among the shareholders, there is great reason to fear the bottom is not yet nearly reached. To show what the exact course of the market has been, the prices paid since last Thursday are subjoined, the quotation on that date having been 1,340—

Monday	...	1,320 1,315
Tuesday	...	1,310 1,305
Wednesday	...	1,300 1,295

So much for the argument that Government is obliged to make the most of its shares in interest of the tax-payers! At present it seems likely to be a very unsuccessful attempt at doing so, and the profit realized is not likely to do much towards lessening taxation. Nothing is done in little flat, and the sales have been at 109, 108, and 108¾.

Tea Shares show scarcely any life, and the almost entire absence of business leaves most of the quotations little more than nominal. Singells have relapsed to 102 down to 100, and Dehings have been let go at 50, a serious drop from the previous quotation, at anything like which, however, there have been no buyers for a considerable time past. The other sales reported are Blenheim at 30, New Dooliyajuli, and 58 premium, Rungbutories, Burkolas 102, Lower Assams 40, Motholas 5 premium, Upper Assams 29, Balasuns 103 and 104 and Phœnix at par; but the total amount of dealing has been very small.

Spinning Mill Stocks continue very steady, with rather an upward tendency, and more buyers than sellers. The following business has been done in jute concerns:—Howrahs 74 and 75 for cash, and 76 to 78 for time, Hastengoras 9758, Budge Budges at premium, Fort Glosters 86 and Seebpores 74. In cotton mills Bowreahs have brought 96 and Goosery 212 to 213.

Coal Shares are in better demand, and there have been repeated purchases at Bengals at 1 1-75. New Beerbhooms have brought 106, and Equitables 230 and 235.

Miscellaneous Shares.—A few India General Steam have again changed hands at 380, and Strand Bank Press at the improved price of 25.

STEAMER REPORT.

GALLE, 1st Nov., 7-5 A.M.

French mail steamer Tibre, from Calcutta, arrived.

We understand that Major-General Forbes, who was formerly Brigadier-General at Ahmednuggur, has been appointed to succeed Lieutenant-General Russell in the command of the Northern Division of the Presidency. There was some discussion whether this important appointment should not be given to General Schneider, but finally it was decided to give the command to General Forbes.

The Lieutenant-Governor has sanctioned a project, submitted by the Port Commissioners of Calcutta, for laying down a tramway on the new riverside road between Baug Bazaar and the Jetties, at a cost of Rs. 17,50,000.

The cotton shipped from the port of Bombay to foreign external ports and foreign Indian ports, during the month of September 1875, amounted to 20,901 bales or 81,56,680lbs. or candies 10,403 13/14 of the value of Rs. 18,54,171.

We hear that the Neemuch and Holkar State Railway will not, as is rumoured, be formally opened by the Governor-General on the occasion of his visit to the capital of Maharaja Holkar. The line from Indore to Oojein is not expected to be opened before July next year.

We learn from the Kurrachee paper that H. M.'s gun-boat Daphne, which arrived in Kurrachee harbour from Muscat on Wednesday, brought down as a State prisoner Syed Selim, who was lodged in the Kurrachee jail the same night, and was to be conveyed to Hyderabad by the train the following morning.

It is notified that in consequence of difficulties of transit, caused by the interruption of communications and other reasons, the Right Honourable the Commander-in-Chief has been pleased to direct that the Soldiers' Industrial Exhibition, ordered to be held in the autumn of 1875, shall be held at Meean Meer towards the end of January 1876.

The Mussoorie paper declares that leopards are becoming exceedingly bold for they disport themselves on the Mall regardless of the feelings of those ladies and gentlemen who are left behind at Mussoorie. A few days ago two ladies were walking on the main road leading from the Post Office towards the Coolery and underneath the Club, accompanied by a pet dog. A leopard sprang upon the poor little morsel and carried him away before the petrified gaze of the ladies. A gentleman lost a goat in a somewhat similar manner, and other casulties, resulting from the misguided appetites of the spotted beast, are mentioned.

MESSRS. THOMAS WATSON AND CO'S Gunny-bag report of the 29th of October furnishes a comparison of the exports from Calcutta during the last nine months and a similar period of 1874. From this it appears that the exports to America this year were 821,750 bags as against 859,000; to Australia, 33,25,856 as against 13,50,120; to China and the Straits, 61,98,780 as against 27,07,450; to Rangoon and Moulmein, 27,83,791 as against 1,26,85,310; to Chittagong and Akyab 15,88,200 as against 33,21,600; to Madras, Ceylon, Bombay, and Kurrachee 1,82,44,470 as against 1,67,95,427; to Great Britain 501,441, and to Egypt 777,345 this year, there having been none exported to the two latter places in the previous year.

SIR JOHN STRACHEY, Lieutenant-Governor N. W. P. family and personal staff, are to leave Nynee Tal (where by the way they have remained longer than usual) on the morning of the 4th November, arriving at Moradabad the day following. On the morning of the 6th Sir John will leave Moradabad for Agra where he arrives on the 7th, for the purpose of making arrangements for the "N. W. P. Ball," and outdoor *fetes*, to be given in honour of the visit of His Royal Highness the Prince of Wales. The Lieutenant-Governor will visit the building in which the Ball is to be held, and there is no doubt, seeing the interest Sir John takes in canvassing for "donations," &c., that the entertainment will in every respect surpass in magnificence of decorations and brilliancy of light all others that have ever been given in the N. W. P. and under gubernatorial auspices.

The deaths registered in the Punjab in the week ending the 2nd October were 14,128, against 11,335 in the previous week. Three hundred and seventy-five deaths were registered under the head of cholera,—the number in the previous week being 448. Fifty villages have been infected in the week. Up to date the total number of villages infected is 603. The cholera deaths shown by districts were as follows:—Umritsar 136, Gurdaspore 95, Lahore 49, Sialkote 25, Kangra 23, Hissar 18, Hoshiarpore 15, Jullundur 5, Gurgaon 4, Umballa 3, Delhi 2, Ninety-eight deaths were registered under the head of small-pox, against 67 in the previous week. The disease continues to be prevalent in the districts of Umballa, Peshawur, Jhang, Montgomery, Kurnal and Gurgaon. There has been a very great increase of mortality in the districts of Hoshiarpore, Gurdaspore, Umritsar, and Lahore. Sialkote continues very unhealthy. The other districts, continue fairly healthy. There were 646 male and 594 female births registered.

It is stated in the Madras Chamber's Market Report, published on Saturday last, that "owing to the uncertainty as to the intention of the Government with respect to the disposal of their Bank of Madras shares, no business has been done during the last fortnight, and the quotation is now quite nominal." We believe, adds the *Madras Mail*, that proposals are being made to Government which will probably prevent any forced sale or sacrifice of the Government shares. We would, therefore, advise nervous shareholders not to be too much influenced by the rumours afloat as to the probable depreciation of these securities, or they may find in a few days that they have been parting with their property at an unnecessary sacrifice. It is a pity that Government should have allowed any hint of their views to get abroad until they had fully decided what course to follow; but proprietors should wait for definite information, and not act on rumours which may differ widely from the true position of matters.

We learn, says the *Englishman*, from Behar that the question of the reduction of expenditure on the occasion of native marriages, raised by Moonshi Piyarilal in our correspondence columns some time ago, has engaged the attention of the authorities, and is likely to bear good fruit. In connection with this subject, a number of others have cropped up, amongst which are the discouragement of early marriages, female education, registration of births and deaths, and life assurances, either after the style of Insurance Companies or on the principle of the Uncovenanted Service Pension Fund. For native female education, such books as the Dharm Shastra and others are proposed; and in view to a proper registration of births, it is suggested that horoscopes should be registered. A Central Committee has been formed at Patna under the presidentship of Mr. C. T. Metcalfe, the Commissioner of the Division, who has earnestly requested the Rajas and other native gentlemen of the province to use their influence with their dependants for the accomplishment of these objects. District Committees will, it is expected, be shortly formed for the same purpose.

The employés in the large establishment of Mr. Deschamps, the well-known cabinet-maker on the Mount Road, Madras, are actively employed in executing orders from all parts of India on account of the Prince of Wales. The *Madras Times* says the chief portions of the furniture required in Bombay were manufactured at Madras, and were sent on to the branch depôt of the firm in Bombay to be completed. The rooms in Government House, Madras, which are to be occupied by His Royal Highness are being fitted up after a fashion hitherto unknown in that part of India. As the arrangements are yet in course of preparation, one cannot form an exact idea of what is really to be done. A good deal of gold, velvet and damask, and wood of the costliest kind are to be used, and the carving work is to be of a very high order. The drawing-room is to be furnished after the Louis XVIth style. The furiture will be gilt and black, lined with cream coloured satin cretonne. The curtains will be of a rich material, lined with lace, and having gilt borders and the plumes of the Prince of Wales. The furniture is to be of Indian mahogany with lines of rosewood. All the other rooms will be furnished after the same style. The rooms will be ready by the 20th instant and they will no doubt present an attractive appearance.

We learn from the Madras papers that the case in which three Eurasian lads, James Rodgers, *alias* Grist, Samuel Aubry and Edward Spink, were, on Wednesday last, charged before Mr. Campbell, at the Town Police Court, with breaking into a beer-shop at Black Town, and stealing therefrom a quantity of beer and wine, was resumed yesterday. Mr. Jeremiah appeared for the defendants, and after the witnesses in the case, who had been examined on the previous day were cross-examined, his Worship directed that another count of receiving stolen property should be added to the charges against the prisoners. Mr. Jeremiah then, on behalf of his clients, submitted that there was no evidence against the prisoners with regard to house-breaking and theft, and contended that, should his Worship convict the prisoners, he would have to convict them of the third charge. He asked his Worship to take the youth of the defendants into consideration, and said that, if his Worship were to imprison them it would blast their prospects. He urged that the parents of the defendants were willing to meet any sum that might be imposed as a fine. His Worship, in sentencing the prisoners, said that as he could place no reliance on one of the witnesses' statement, he would convict the defendants of receiving stolen property, but if his Worship committed the prisoners to take their trial before a jury, and if the witness whom he doubted was only supported by another witness, the defendants would be severely punished. The Court sentenced each of the defendants to pay a fine of fifty rupees with the alternative of two months' rigorous imprisonment.

ENGLISH COMMERCIAL LETTER.

(FROM OUR OWN CORRESPONDENT).

LONDON, 8TH OCTOBER.

We have had a panic on the Stock Exchange in Turkish and Egyptian bonds, and a good deal of uneasiness among investors generally this week caused by the depressed condition of many Stock Exchange securities, but the matter is so mixed up with political considerations that it is not easy to know how to deal with it. There has been, from good reasons, a heavy fall in Turkish bonds, and as these represent a total of something like £150,000,000, one half of which probably is held in England, the nominal loss is great. This fall was stimulated by various untoward events, the first of which and fruitful parent of all the others was the Herzegovina insurrection. The cost incurred by military preparations to crush this drained the Turkish Treasury just at a time when it became necessary to provide for the payment of the interest and drawings falling due on the 1st October, and then the Government in a hurry had to borrow money to pay the coupons or run the risk of a default that would have been fatal to its credit. There was some difficulty in borrowing this money, the amount being large, £1,800,000; while the Ottoman Bank which had undertaken the function of attending to the service of the Debt had already come under heavy advances to the Government and would go no deeper at the moment. During this interval of suspense, Stock Exchange speculators had it all their own way and sold without limit, aiding their operations by a free use of rumours, and, it is to be feared, also of false despatches, fabricated chiefly in Paris, as to the doings of the insurgents in the Herzegovina. At last the £1,800,000 was found and the coupons paid, but the stab which previous incidents had inflicted on Turkish credit was too deep to heal all at once, and the market for these stocks is still miserably dull, while investors, all over the country, are seriously disheartened. The problem is to see a way out of the impecuniosity which seems chronic in Turkey, and yet to protect the bondholder. This matter is so large that it engrosses at this moment, I believe, the attention of every European Cabinet. Turkey has had, during the last eight months, a concatenation of calamities, one following too closely on the other to leave any breathing space or time for recovery. First the famine in Asia Minor caused a deficit of about five millions sterling in the revenue, and then came the insurrection. The Treasury is now at least seven millions behind and has to provide about three millions more in January—total ten millions to be made good from some other source than revenue, since that only suffices at present for the ordinary charges and extraordinary expenses, and for the service of the specially guaranteed loans; should the insurrection last over the winter the position would be even worse. A public loan is not to be thought of, and the large financial houses are already so deeply "in" with the Porte by advances that it is doubtful whether they will go any further. Yet, on the other hand, unless Turkish credit be maintained, all hope of the public buying the securities with which these financial houses are overloaded must be abandoned, and their losses would prove ruinous. So while unwilling to go any deeper they can hardly help it. The most feasible mode of escape is that which has been adopted, I think. The financial houses proving unmanagable it has been determined to pay the interest on what is called the General, or Five per cent. Debt partly in cash and partly in new 5 per cent. Rentes to be issued. Another plan would have been to suspend it altogether, for say two years, during which the series of important reforms just initiated or promised would have time to tell on the industrial resources of the country. This particular Debt does not enjoy any special hypothecation and therefore is the first to go to the wall. The objections to such a course are, of course, numerous, and not the least of these is the reluctance felt by the Turks themselves to repudiate; but just as the Spanish bondholders submitted to one compromise, or "conversion," or re-arrangement, after another, always in the hope that by the relief thus obtained their debtor would be better enabled to pay what was left and the value of their stocks would rise, so both Turks and bondholders, probably, after making a few wry faces will consent. What is certain is that among the reasons which have induced the Great Powers to pronounce so strongly as they have done against the Herzegovinese insurrection is the consideration that otherwise there was a serious risk of bankruptcy and hence of appalling losses to European capitalists. In fact the converse of what the *Pall Mall Gazette* said about the Turkish Debt and the insurrection may be said of the other phase of the matter. Alluding to the extensive manufacture of false telegrams to influence the Bourses, the *Pall Mall* said that if there had been no Turkish Debt the rebellion would have died of sheer neglect, but the attention which "bears of" these stocks fixed upon it for their own purposes kept it alive. The insurgents fancied the eyes of Europe were on them and were encouraged to persevere. In the same way if there had not been so many creditors of the "sick man", the Powers would not be so determined that the insurrection should be put down as quickly as possible. And accordingly the latest rumour is that an International Commission or Syndicate is to be formed, with the sanction of the various Governments, for the purpose of in some way superintending the measures taken in the interests of the bondholders; but what those measures are to be, and what the precise form and extent of the superintendence, of what is after all purely Turkish, I cannot yet say.

I have alluded to the false rumours sent out among the European Bourses. These have been so numerous and flagrant, and have so steadily kept up one tendency—that, namely, of making everything as bad as possible for Turkey, as to clearly indicate a stock jobbing origin. So far had this plague of lying reports gone that the Marquis de Ploeuc, Sub-Governor of the Bank of France, lately called the attention of the French Government to the matter in the Permanent Commission of the Assembly. But there has been no worse sinner than the special *gobemouche* whom the *Times* chooses to retain in its service at Berlin. The Prussian capital has no special opportunities of hearing what goes on in Herzegovina, yet this correspondent systematically sends news utterly misleading as to the nature and prospects of the rebellion, and the *Times* as regularly prints it. Thus, if stock jobbers are to blame, sensational journalists are equally culpable.

The Oriental Bank have declared a dividend at the rate of 12 per cent. for the half year ending 30th June last. The Chartered Mercantile Bank of India, London, and China have issued their report in advance of the meeting to be held on the 19th instant. The accounts show a net profit of £85,115-7, and an interim dividend at the rate of 8 per cent. per annum free of income tax is declared, leaving a balance of £35,115-7 to be carried forward. The balance sheet shows that the current and fixed deposits amount to £3,355,046-3-2, and bills payable, notes in circulation and other sums due to the public, £5,114,821-18-4. The coin and bullion are £1,417,431-14-4: cash with bankers and money at call £388,826-4-9: Government securities £185,581-10-8: and bills receivable, loans and other debts due to the bank, £7,143,269-2-6.

The Board of Trade returns for September and the nine months were issued yesterday. They tell the old story of declining trade, and this time it is impossible to conceal the decline under the convenient fiction of falling off in values only, for in many of the principal articles, cotton and woollen goods for instance, the decline is in quantities also. The total declared value of the exports for the month was £19,853,750, against £21,463,876 in September 1874, and £22,274,225 in September 1873. For the nine months the totals are: £193,675,520; £180,940,908; and £169,365,594 in 1873, 1874 and 1875 respectively. The proportions on cotton goods and yarn are as follows for the month: yarn, 19,811,500lbs, against 19,782,604lbs. in September 1874, and 16,639,083 lbs. in September 1873; piece goods 322,692,100 yards last month, against 346,518,805 yards in September 1874, and 300,975,465 yards in September 1873. The amounts to Bombay were: yarn 574,600lbs. last month, against 729,800lbs. in September 1874; piece goods 25,915,800 yards, against 26,857,800 yards in September 1874. The import of cotton was less also, the total being 438,694 cwts, against 749,717 cwts in September 1874; the proportions from British India were 306,806 cwts last month against 484,839 cwts in September 1874. The difference is mainly in cotton and woollen goods, as I have said, and I fancy must be chiefly explained by the after effects of the Collie failures, and the stranding of so many houses which were largely given to shipping not only to the East but foreign markets generally. The falling off to Bengal in piece goods is about 35 per cent. as compared with September last year.

The statistics of the American cotton crop for the year ending 1st September 1875, have now been published. The total amounted to 3,832,991 bales, the export was £2,684,708 bales and the spinners taking 1,193,005 bales, leaving a stock on hand at the close of the year of 66,059 bales.

The steamer Deccan, on board which most of the "Specials" going out to India to report the Prince of Wales' visit took passage, has put back in the Mediterranean with her screw disabled—another unlucky accident for the P. and O. Company. By this means the Southampton portion of the last mail is delayed a week.

I do not know, by the bye, whether you have even yet a correct list of the special correspondents. Here they are: For the *Times*, Mr. Leonard Courtney, one of that journal's best leader writers, in addition to Russell who hardly counts as a correspondent; *Daily News*, Mr. Forbes; *Standard*, Mr. Henty; *Daily Telegraph*, Mr. Gay, vice Mr. Arnold, who, as I lately told you, is not now going; and the *Echo*, Mr. Meason. The little *Echo* by the bye since it came out as a morning paper has not done wonders. It looks, to put it mildly, a miserable ha'porth, short of intelligence of all kinds, badly edited and badly written. Grant, however, is proud of it, and understand boasts that he will spend £30,000 sooner than see it fail. He has taken the whole of one of the divisions of Ludgate Circus as an advertisement office, and pays £2,000 a year rent, but half of this he will get back by sub letting. Meanwhile if his paper does nothing else, it never fails duly to puff any scheme with which he has anything to do. This, in the long run, I venture to predict will not pay, neither will Mr. Samuel Laing's puffing of the Brighton line. A curious thing I am told is found in the sale of the *Echo*: the morning edition takes so much from the circulation of the evening editions, the total circulation being only about 30,000 copies.

A new railway, a hopeful scheme, is projected between London, or rather the suburban metropolitan system, and Brighton. It is to cost only £1,250,000, and to be wholly a passenger line—no goods traffic and no expensive sidings.

BREACH OF ETIQUETTE TOWARDS THE NATIVE RAJAS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Last week the native Rajas and Chiefs have been visiting the Governor, Sir Philip Wodehouse, at the Government House, Parell, and courtesy demanding that the Governor should as usual pay *return* visits, in his turn as the unbecoming expedient to get rid of the trouble of calling separately upon the Rajas and Chiefs. He asked the unwilling Princes to call on Thursday and Friday at the New Secretariat, where he would be from morning until evening, and this reception they were to consider as a return visit paid by him to them. This, perhaps, is on the principle of "two blacks make one white," and is by no means bad that this sage maxim was fully explained to the native Princes by the Political Residents and other officials attached to their Courts, so that they may not have any misgivings as to the good sense or manners of Sir Philip. To carry the farce out in its integrity the *utter and pan sopare*, which were kept ready at the Secretariat at the expense of the British Government, were given by the Oriental magnates to the Governor, in the same way as if the latter had honoured them with a call at their own residences. Is this anything else but a *dignified* humbug? It is a matter for congratulation, however, that the three most important of the Rajas—the Gaekwar, the Maharaja of Kholepore, and the Rao of Cutch—were not made the subjects of as much ridicule as the other minor Princes. This would, perhaps, be another arrow in the quivers of such philanthopists as Mr. Eastwick, Mr. Nowrojee and Mr. Dadabhoy to be used on the next fitting occasion, that might present itself, at one of the meetings of the Associations, incorporated for redressing the grievances of the poor oppressed Indian nationalities.

There was another indiscretion also committed by our big wigs on the first occasion of the Rajas presenting themselves at the Government House, Parell. Most of them, if not all, had to cool their heels, waiting in the open veranda on the ground floor of the gubernatorial residence, till the interview of the Raja, who had gone before, had ended, and their turn came to be presented to His Excellency. Was there no other place in the mansion but the ground floor verandah, where the Rajas could have been accommodated for the time they were kept waiting. It is a pity the punctilias of Eastern etiquette are not better understood by our high officials, whose behaviour on such occasions not only give dissatisfaction to our loyal native chiefs, but also give rise to the lachrymose sentimentality of some of our would-be O'Connells of India.

THE DISTRICT CHAIR.—This ingenious invention of a French Carpenter, folds into a space about the size of a Railway Pillow, and is most suitable for Civil Servants and Military Officers for use in the Districts, as well as for the Drawing Room, being made extremely neat and of the toughest wood. The joints and hinges are made on a principle to add strength instead of weakening as usual, to be had at WATSON AND COX-ANY'S, Church Gate Street and Rampart Row, Bombay.

CONDITION OF THE POOR WHITES IN MADRAS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—My attention has been lately drawn to some rather severe criticisms in the Madras papers on statements made by me in a letter to the Calcutta *Statesman*, and my assertions respecting the condition of the poor in Madras appear to be doubted (although I cannot hear that any attempt has been made to disprove them). This I am not much surprised at, for paradoxical as it may seem, it is nevertheless true that those who are surrounded by the greatest poverty are seldom fully acquainted with the actual extent of it. We have proof of this in many large European cities. Nay, in London itself, during the first half of the present century, the wealthy knew little or nothing of the misery which existed in the neighbourhood they resided in. Poverty, as a rule, shuns publicity; it strove to hide itself in back slums and alleys where the rich and well-to-do never care to penetrate. Let the visitor to Madras visit the pacherries which are termed by a Municipal Commissioner of that city "sink holes of corruption and hot beds of rascality," and he may then form some faint idea of the existing poverty. It is implied that I have maligned the poorer classes. I deny it; I have simply stated what poverty has forced some of them to, and I think that few of those who have criticised my sayings have ever felt the pangs of hunger or can understand what men—aye, and women, too—will do to satisfy its cravings. I know there are many respectable people, whose morals are unassailable, residing in the very midst of poverty and vice, yet even they isolate themselves from their neighbours, and it is but few of them can give a correct account of the condition of those among whom they dwell. The following extract from a Madras newspaper may prove interesting.—"Writing from recollection of a statement made by the late Mr. C. E. Gover when Census officer, Madras city, showed eleven thousand Eurasians—two thousand of them were well off, two thousands more moderately so, while the remaining seven thousand were either absolute paupers or persons whose condition bordered on pauperism. With such facts, if facts they are, what can be the end? It would not be unprofitable on this point to consult the statistics of crime in the possession of the magisterial and High Courts of Madras. About twenty years ago the statement was made in the local newspapers that the Eurasian community was one which showed neither immorality nor crime. What newspaper would dare to make it now?" My conclusions have not been hastily arrived at, but are the result of careful enquiries, and the following extracts from letters received since my return to Allahabad may perhaps help to shew whether I have overdrawn the picture:—"The state of the East Indian population here cannot possibly be much worse. With few exceptions there is nought but the most abject poverty." "Your remarks relative to the condition of the Eurasian population of Madras has given rise to some hostile criticism, but they are nevertheless true. Ten years ago it was difficult to find an European or Eurasian woman of depraved morals, but now they can be counted by the score, a proof positive of the destitution existing in several homes." "I am glad to be able to assist you and will send you some information in a few days respecting Eurasian women forced to an immoral life through poverty." Let those who doubt the results arising from poverty do as I have done. Let them question the Bible readers, the midwives, and, above all go among the poor and destitute and question them. Before leaving Calcutta, I received letters from Madras respecting the poverty which existed, and from enquiries subsequently made, learned that my correspondents' statements were correct, and that cases were not unknown in which Eurasian girls had to resort to the protection of natives to keep them from starvation, and on doing so had to cast off their own clothing and adopt that of a native woman. I told this to the editor of a Madras newspaper (who has been profuse with his criticism on my sayings), and his reply was "such a thing is quite right, they ought to have done so long ago." Now, how more desirable it may be, that the Europeans and Eurasians in this country should identify themselves with the native population, I venture to think very few will endorse the sentiments expressed by the editor I allude to. A great many gentlemen, otherwise benevolently disposed, are in the habit of imputing the distress and poverty which exist among the poorer classes of Europeans and Eurasians to slothful habits, false pride, and want of self-respect. This is unjust. There are some among them I am aware who merit the application of such terms, but that is no excuse for condemning the entire body. There are hundreds who would work if they could obtain employment, and many with whom I have conversed are not only willing but desirous of undertaking agricultural labour which has induced me to prepare a scheme for colonizing the Hill range, and I am glad to be able to say that it has received the approval of gentlemen qualified to form an opinion and who, I have every reason to believe, will give it their support. Benevolence in this country has generally displayed itself in the establishment of funds for granting charitable support to the unemployed and destitute, and some of them exhibit two peculiar features. One is that some of those who have the dispensing of this charitable relief object to recipients of their bounty regarding their names as unemployed, while the others who perceive (although they rarely acknowledge the fact) that the system of charitable support instead of reducing increases the amount of poverty, assert that the poor ought to strive to help themselves. With this last remark I agree, but at the same time contend that the poorer classes must have external assistance as they have fallen so low that they cannot raise themselves unaided. It is an axiom in social economy that the poor ought to wish for the opulence of the rich, and the rich out of pure selfishness ought to desire to improve the condition of the poor. To improve the condition of the poor was presumably the purpose for which the various charitable associations were established, but I am impressed with the belief that under their present organization they defeat the object they have in view, and believe that were a portion of their funds applied to some such undertakings as those recommended by Mr. White in the speech he made on the Memorial Hall, Madras, they would find the applicants for charitable support would soon become reduced to those who either could not or would not work. I have not time to enter so fully into this subject at present as I would wish, or to enlarge upon what I have said respecting Madras itself; but, in conclusion, must express my belief (formed from what was told me by several gentlemen in that city) that if Madras presents a better appearance than formerly, it is owing to the exertions of the Hon'ble J. G. Coleman, who has taken a very lively interest in its condition and welfare, and, it remains to be seen whether the example he set will be followed by his successors in office.—Yours &c.

F. T. ATKINS.

THE SCRATCH REGATTA AT POONA.

[FROM OUR OWN CORRESPONDENT.]

POONA, 30TH OCTOBER.

The boating season has wound itself up with a very Scratch Regatta; certainly the most amusing one we have had. Nearly every one who could scoop himself along in a boat of some sort, put himself down for at least one of the races. Lady Sassoon was kind enough to lend us the bungalow called "Bunder Salams," as a grand stand, and the verandahs were brilliant with the dresses, bonnets, and hats, of the exceedingly fair sex. The first race was the Sculling and Rowing Handicap and the boats came in as follows:—

Name	Boat	Start. (seconds)
1. Fletcher	Whiff	Scratch.
2. Green	Pair-oar	22
3. Rodick	Do.	24
4. Joyner	Canoe	34
5. Hamilton	Pair-oar	22
6. Donald	Randan	24
7. { Holland / Steele }	Barge	25
8. { Dun / Kerr }	Do	27

The Canoe had the longest start and wobbled along the bank of the river with every intention of winning. It would have been fairer, perhaps, if the spirited Canoeist had been allowed to carry his canoe and run along the bank, but he did his "level best." The Whiff won pretty easily, and the "prettiest oar on the river" came in fifth. Perhaps the most entertaining boat was the *last*, which cucled in and out, and might have won if it could have kept away from the further bank. The Barge, though a convivial, is not a *fast* boat, and when there is any uncertainty about the course, it isn't easy to get it's head straight again. The next race was the Scratch Fours and there were six entries as follows:—

1	4
1. Lucas, C.	1. Herbert.
2. Holland.	2. Allen.
3. Down.	3. Gibbs.
St.—Fletcher.	St.—Green.
Cox.—Miss Aitchison.	Cox.—Miss Inglis.
2	5
1. Domvile.	1. Hutchinson.
2. Owen.	2. Kerr.
3. Steele.	3. Hamilton.
St.—Joyner.	St.—Donald.
Cox—Miss Mennie.	Cox—Miss Haggard.
3	6
1. Lucas, H.	1. Dun.
2. Whiting.	2. Inglefield.
3. Clarke	3. Rodick.
St.—Fosbery.	St.—Loch.
Cox.—Mrs Hutchinson.	Cox—Mrs. Daly.

This race was not very well contested.

Next came the Corkscrew Fours on an entirely new and original principle. There were lady coxswains, but no rudders, and it was said that each lady had written instructions as to how she was to steer. Here are the entries:—

1	2
1. Lucas, C.	1. Allen.
2. Clarke.	2. Steele.
3. Gibbs.	3. Down.
St.—Joyner.	St.—Fosbery.
Cox.—Miss Inglis.	Cox—Miss Inglis.
3	4
1. LeMesurier.	1. Lucas, H.
2. Domvile.	2. Holland.
3. Whiting.	3. Green.
St.—Fletcher.	St.—Rodick.
Cox.—Miss Mennie.	Cox—Miss Stone.

This race was the best of all both as regards the incidents and the finish. About half way down Fletcher ran into Rodick, or Rodick into Fletcher, any how the result was a mixture of oars and lady coxswains and boats—all the elements of a disastrous ship wreck. There was frightful language used by the lady coxswains. One was heard to say "Oh, dear!" in a tone which would be equal to culpable homicide if used by one of the foul sex. In fact it was a wonder that neither of the boats went down like a Stone. It was quite a Mennie-ture Iron Duke and Vanguard affair. Fosbery's boat made a gallant struggle, but No. 2 in his boat doubled up, and let bow-side pull them into the bank. Fosbery was leading till Joyner put on a gallant spurt and won by half a length. The other two boats unravelled themselves and came in quite safe with their charming coxswains. Last of all came the Tub Race, in honour of H. R. H. the Prince of Whales. There were three entries:—

1. Joyner.
2. Fletcher.
3. LeMesurier.

All the competitors jumped out of their tubs; but Joyner brought in his own, Fletcher had LeMesurier's and LeMesurier came in alone, so Joyner won. Joyner came in second, but having secured his own tub, fulfilled the conditions of the race. He was heard imploring in an agonised voice interrupted by sputtering for a gun, "Oh, do give me a gun." But they wouldn't, unless he wrote in officially. The winner keeps his bath tub as a prize, to put him in mind of the Prince of Wales, and long may he live to soap himself in it! The lady coxswain who won the Scratch Fours carried off an oxydised silver jewel casket, pewters for the crew, and one of the Corkscrew Fours had a silver corkscrew charm, her crew having corks mounted in silver. "The shades of night were falling fast" as the last Scratch Regatta ended, and the winning crews bore off their prizes, Mr. Joyner bringing up the rear with his bath tub, the other competitors bearing severally a piece of soap and a sponge. I can't vouch for the strict accuracy of this description. The Sappers took a photo of the scene, and some wierd creatures let off fireworks on the other side of the river. Colonel Wilkinson was kind enough to send down the Band of the 15th Regiment, and very welcome it was. I think the thanks of all the boating community of Poona are due to Mr. Joyner, the Honorary Secretary of the Boat Club, for the trouble he has taken all through the season in getting up regattas, and keeping the boats in such excellent order as they are.

The post of Honorary Secretary is anything but a sinecure, and the thanks which are generally accorded to Honorary Secretaries are seldom given with sufficient appreciation of the trouble taken. I beg to propose the healths of the lady coxswains. Fill your glasses gentlemen. Hip, hip, hip, hooray! Now, then, one cheer more, and a little one for the Corkscrew! Hip, hip, hip, H-o-o-o-o-raay!!

BOMBAY.

HAULED INTO DOCK.—H. M. S. Amberwite, was hauled into the Government Dock yesterday.

THE CHIEF OF RAJGARH.—The Chief of Rajgarh with 250 followers, *en route* to Meeanmeer, arrived in Bombay yesterday. A salute of 11 guns was fired for his arrival.

TORTURE.—Yesterday morning at the Fort Police Court, before Mr. Nana Morojee, a cart-driver named Luximon Sabsjee was charged, at the instance of the Police, with having cruelly tortured his bullock, and having pleaded guilty, was fined Rs. 6.

SUDDEN DEATH.—An inquest was held yesterday at the Custom House Bunder, on the body of Sukharam Gungaram, who was attacked with an epileptic fit while at his work as a labourer and died almost immediately. The jury returned a verdict of death from epilepsy.

A VAGRANT.—Constable Bannett yesterday charged William Coleman before Mr. Nana Morojee, with having been found wandering about without any visible means of subsistence, and on conviction, the prisoner was sent by his Worship to the Government Workhouse as a vagrant.

ILLEGAL POSSESSION.—At the Fort Police Court yesterday morning, Mahomed Moosau was brought up before Mr. Nana Morojee and charged, at the instance of the second steward of the P. and O. steamer Sumatra, with having been found in his cabin in illegal possession of a knife and some towels and napkins, &c., belonging to that vessel. The prisoner pleaded guilty and was fined Rs. 15.

THE LOST FOUND.—The lid of the ebony box, which is to contain the trowel and mallet to be used at the laying of the foundation stone of the Elphinstone Docks, and which we mentioned a few days ago as having been stolen, was found on the day the announcement of its loss was made. Mr. Reid, of the Esplanade police force, succeeded in recovering the lid and much credit is due to him for his vigilance.

ACCIDENTAL DEATH OF A EUROPEAN BOY.—A lad named Joseph Gaston, aged 19, was accidentally drowned in the harbour on the 26th instant. The deceased was an apprentice on the ship Ocean Queen, now in harbour, and was engaged on the day in question in tarring the ship's side, to do which he was standing on a ladder which had been slung over the side as a stage. The ladder suddenly slipped, and the deceased losing his balance, fell into the water and was drowned. The body was not recovered until the 28th, when an inquest was held and a verdict of accidental death by drowning was returned.

THE HIGH PRIEST OF THE PARSEES IN THE DECCAN.—Khan Bahadoor Dastoor Nosherwanjee Jamaspji, high priest of the Parsees of the Deccan, and a Sirdar of the first class, leaves this morning for Bombay, to be present at the reception of His Royal Highness the Prince of Wales at the Presidency.—*Deccan Herald*, No. 1.

A NEW SONG.—We have received and acknowledge with thanks a copy of a song entitled "India's Welcome to the Prince of Wales," written and composed by Mrs. D. McLauchlan Slater. We noticed the words before when they appeared in one of the Bombay daily papers, and the music is most appropriate to the words; brilliant as all Mrs. Slater's friends know her performances to be. She is an accomplished musician and understands both the theory and the practice of music. We trust that the song will be sung by children at the *fete* Bombay ought to be proud to show that she possesses one who can sing so sweetly in honour of the coming Prince.—*Id.*

ADVICE IN SEASON.—One good of great use will be done to native princes and their attendants by their visit to the Presidency city. By living for a few days in Bombay the sense of their importance will be greatly diminished. Native nobles often possessing no knowledge, no love of justice, and accustomed to rate themselves at a high value in their own territories, will find that in Bombay they are merged in the common mass of humanity, and that it is the Prince of Wales who is the hero of the hour, and whom all are willing to bow and to reverence. Mischievous Parsees are saluting men who are great in their own dominions with all seriousness, and when the salute is returned they laugh in their very faces. Citizens and especially Parsees have a very high opinion of themselves. They take great delight in ridiculing those who come from the Mofussil to see the city or to welcome the Prince. They laugh at the peculiarities of their dress, and frighten their horses by mischievous cries, and the injured people feel the inconvenience of going about freely in a magnificent but strange place without being laughed at by persons who laugh for their own merriment, exhausting all their powers of ridicule and sarcasm and making a clever use of their conversational powers. Thus it is that a man ought to live, for there is no instrument so effective to improve the character of an individual, and to make his faults less, as the instrument of ridicule when it is properly used, and used in the case of

AGENTS IN BOMBAY—MESSRS. FORBES & Co.

AGENTS IN CALCUTTA—MESSRS. FITZE & Co.

This Company has been formed for the purpose of trading with Turkistan, Kashmir, and Afghanistan, as well as in the Punjab, and will take over the good will, business, and property of the present Central Asian Trading Company, for a sum of £6,000, or Rs. 60,000.

The Maharajah of Kashmir has appointed the present Company the Sole Agents, for sale in Europe and America, of the manufactures and products of his country. He will make over this engagement to the new Company and give it all the support and aid in his power. His Excellency the Diwan Kirpa Ram, Prime Minister of the State of Kashmir, is a shareholder in the old Company and will, with the other shareholders, transfer his investment to the new Company.

The Manager and Shareholders of the old Company are now thoroughly acquainted with the class and quality of Goods most in demand in the countries named. Experience has shown them what produce to take in exchange from native traders, with reference to both European and Indian markets. It is certain that a large and lucrative trade already exists, and that it is capable of vast extension.

The large profits already realised on the Goods procured from Yarkand lead the present Directors to look with the utmost confidence to the results of the future trade. Valuable experience has been gained, and the concessions alone obtained from His Highness the Maharajah of Kashmir are of great value.

Warehouses will be established at Srinaggur and Peshawur and eventually at Leh. At the two former places buildings have been already arranged for Caravans will set out at present be sent to Yarkand. All transactions will take place at the warehouses for cash *only* or by barter.

Further particulars may be obtained from Mr. T. RUSSELL at Murree, who will be happy to afford any information.

Several Gentlemen of influence and position have joined the Company, and shares have been already taken up.

Applications for shares should be made to the Company's Bankers at Sawal Pindee, Lahore, Mooltan, Murree, Calcutta, or Bombay, in the form appended, and accompanied by a deposit of Re 1 to a share.

A further payment of Rs. 4 a share will be required on 1st January 1876. Notice of not less than three months will be given for further calls, which will not exceed Rs 25 a share.

THE TILE MANUFACTORY, MANGALORE.

The Undersigned begs to draw the attention of all BUILDERS, CONTRACTORS, CIVIL ENGINEERS, &c., to the

FLAT (GROOVED) AND RIDGE TILES, manufactured at the German Mission's TILE FACTORY, Mangalore, which are superior in every way to the usual common Country-made Tiles.

For ECONOMY and DURABILITY he is confident they are unsurpassable, and will recommend themselves to every one who uses them.

In ROOFS constructed with these Tiles, a saving of ONE-THIRD is effected on Rafters alone, and more than ONE-HALF on the Reepers.

AREA, 150 Tiles cover 100 square feet.
WEIGHT, 1,000 Tiles weigh 2½ Tons.
